Dear Sir,

It was indeed a pleasant surprise to visit the premises of Police Radio Training School at Indore. The campus looked well developed, the faculty members are highly competent and the trainees are highly motivated.

You had invited me to address the trainees as a part of "Horizons" – the evening lecture series. The topic given was "Trends in IT & CSE Sector". It was very satisfying to note that your police training organization is gearing up to provide the latest technology based training for its personnel and to achieve that end, taking the support of the best in the academic world. I had detailed discussion with you on the e-Investigator development project that you have been implementing at the PRTS for the past year. That too is definitely a step in the right direction and in tune with the needs and requirements of the coming times.

I put on record my appreciation for all your efforts in developing technologically equipped and aware police investigators which will add to the competence and capability of the Madhya Pradesh Police.

With regards,

Yours sincerely,

Narendra S. Chaudhari
