To  
Sri Varun Kapoor,  
IGP & Director,  
Police Radio Training School,  
Indore (MP)

Dear Sir,

One of the main challenge in this era of internet before the Law Enforcement Agency is to train their manpower to handle, investigate and analyses the digital evidence. Such digital evidence is now integral part of crime be of the nature of civilian or criminal.

Even in "non-cyber crime" cases, important evidence is found in computers and cell phones. E.g. in case of murder, tax evasion, divorce, terrorist operations etc.

Providing enhanced and strict Cyber Security is today one of the biggest challenges facing the Law Enforcement agencies of country. I sincerely congratulate you on your efforts to train so many officers in the area cyber law and cyber investigation in past years.

Your efforts are an example for others to learn, follow and implement.

We hope the candle lighted by you is carried forth as a torch by trainings across India. We will have no problems addressing cyber crimes in India

Please let us know if we can be of any help to your training centre' we will be more than happy to assist you and your team.

I heartily wish you all the best and all success in the times to come.

Regards,

Manish Jain
