Dear Shri Kapoor,

Cyber Awareness Session at SBFI Chetana on 18/10/2016

It was brought to my notice by one of my colleagues Shri A.K. Gupta (DGM Research) (who was visiting "Chetana Institute" and attended your session on 18/10/2016) that you spared valuable time from your busy schedule to conduct a very relevant Cyber Awareness session for our newly promoted Trainee Officers at SBFI, Chetana.

The session was very engrossing and was all the more relevant in today's context when we are moving our operations to a digital platform. We are vulnerable and susceptible to various kinds of cyber related crimes and the fraudsters succeed in their attempts because people lack awareness about such crimes. Your session has generated a lot of awareness about cyber security issues. You also shared preventive steps as regards the Do's and Don'ts while operating in cyber world. Your session will go a long way in enlightening of these young officers who are on the threshold of a new journey in their careers and they will surely spread this awareness about the cyber security risks to their customers as well when they go back to their branches.

I appreciate and express my gratitude to you for conducting such an important and extremely relevant session with the newly promoted Trainee officers of the Bank. I look forward to more such sessions from you as and when the opportunity arises.

With best wishes,

Yours sincerely,

Debashish Sarkar
